

CJRT Top Cited & Downloaded Papers

The following articles are the top 10 successfully resolved DOIs

(updated monthly, data from CrossRef)

<i>High-frequency oscillatory ventilation: A narrative review</i>
<i>Basic spirometry testing and interpretation for the primary care provider</i>
<i>SingStrong—A singing and breathing retraining intervention for respiratory and other common symptoms of long COVID: A pilot study</i>
<i>Strategies to achieve adherence to prone positioning in awake COVID-19 patients with high-flow nasal oxygen. A case series</i>
<i>Tracheostomy in critically ill patients with SARS 2 COVID-19 infection: a prospective observational multi-center study of short- and long-term outcomes</i>
<i>Effect of humidified versus nonhumidified CPAP on inflammatory response and nasopharyngeal symptoms in healthy participants</i>
<i>Association of COVID-19 and other viral infections with interstitial lung diseases, pulmonary fibrosis, and pulmonary hypertension: A narrative review</i>
<i>Fluid management in Acute Respiratory Distress Syndrome: A narrative review</i>
<i>Effects of wearing different facial masks on respiratory symptoms, oxygen saturation, and functional capacity during six-minute walk test in healthy subjects</i>
<i>Cough peak flow to predict the extubation outcome: Comparison between three cough stimulation methods</i>

The following articles have received the most citations:

(updated quarterly, data from Scopus)

Year	Article
2014	<i>To PAPR or not to PAPR?</i>
2013	<i>Respiratory complications in the postanesthesia care unit: A review of pathophysiological mechanisms</i>
2015	<i>Race, ethnicity and lung function: A brief history</i>
2015	<i>Endotracheal suctioning practices of nurses and respiratory therapists: How well do they align with clinical practice guidelines?</i>
2019	<i>High-frequency oscillatory ventilation: A narrative review</i>
2010	<i>Human factors in clinical shift handover communication - Review of reliability and resilience principles applied to change of shift report</i>
2016	<i>Evidence regarding patient compliance with incentive spirometry interventions after cardiac, thoracic and abdominal surgeries: A systematic literature review</i>
2011	<i>Teamwork, teambuilding and leadership in respiratory and health care</i>
2009	<i>Orientation and position of the scapula, head and kyphosis thoracic in male patients with COPD</i>
2020	<i>Low level laser therapy as a modality to attenuate cytokine storm at multiple levels, enhance recovery, and reduce the use of ventilators in COVID-19</i>
